天俱时始创于1998年，是一家赋能新技术产业化的工程设计集团，依托先进的设计理念和前瞻性的国际视野，为全球客户提供技术研发、工程咨询与设计、工程总承包、智能装备、自动化与信息化、玉米干法分离制糖技术、水处理技术于一体的综合解决方案，帮助客户实现From Lab to Fab的产业化转化。业务涵盖精细化工、含氟精细化学品、电子化学品、合成生物、生物发酵、玉米深加工、生物医药、化学制药、食品健康、水处理、冶金矿山等高科技行业领域。

TIANS Group founded in 1998, is an engineering design group empowering industrialization of new technologies. Based on advanced design concept and forward-looking global perspective, we provide comprehensive solutions involving technology R&D, engineering consulting and design, T-EPC, intelligent equipment and automation & informatization, the technology of corn dry fractionation and glucose production, and water treatment technology to help our clients achieving From Lab to Fab industrialization transformation. Our business focus on high-tech fields, including fine chemicals, fluorine-containing fine chemicals, electronic chemicals, synthetic biology, biofermentation, corn deep processing, biomedicine, chemical pharmaceutical, food and health, water treatment, metallurgy and mining.

## 天俱时设计

天俱时设计是天俱时集团业务板块的核心与龙头,设有化工医药设计院、冶金设计院和技术创新研究院三大平台,拥有300余位以国际知名设计专家及国内勘察设计大师为核心的高素质设计团队,具有前瞻性的国际化视野和丰富的设计经验,为客户提供最具落地性、符合法规要求的工程咨询与设计服务,实现方案、投资、工期和项目品质的全方位保证。我们秉承“Just for Better Design”的设计理念,将未来的需求融入当下的设计,让每一项设计都成为未来的引领者。

TIANS design is the core and leader of the business segment of TIANS group. TIANS Design has three teams:the Chemical and Pharmaceutical Design Institute,Metallurgical Design Institute, and the Technology and Innovation Center. It has a high-quality design team of more than 300 internationally renowned design experts and domestic survey and design masters as its core. **With a forward-looking international perspective and rich design experience**, TIANS Design provides customers with the most practical and compliant engineering consulting and design services, ensuring comprehensive guarantee of solutions, investment, construction period, and project quality. We adhere to the design philosophy of 'Just for Better Design', integrating future needs into current designs and making every design a leader of the future.

历经多年发展,天俱时设计形成了以国内勘察设计大师及国际知名设计专家为核心,多位相关领域知名技术专家为人才砥柱的高素质团队。团队成员具备全球视野,主导设计建设了覆盖含氟精细化学品、电子化学品、氨基酸、酶制剂、液糖、多肽、小核酸、ADC、疫苗、绿电、食品、农药等多领域项目,综合实力和客户满意度在国内同行业位列前茅,铸就了“天俱时设计”的独特品牌。

Over years of growth, TIANS Design has built a top - notch team. It is led by domestic survey and design masters and internationally renowned design experts, and bolstered by many well - known technical experts in related fields. With a global perspective, the team has spearheaded projects across diverse fields like fluorinated fine chemicals, electronic chemicals, amino acids, enzymes, liquid sugar, peptides, small nucleic acids, ADC, vaccines, green power, food, and pesticides. Its all - around strength and customer satisfaction rank among the domestic industry's best, establishing the unique "TIANS Design" brand.

天俱时集团与CB Consultancy AG等国际设计团队建立了长期稳定的合作关系，定期进行设计经验交流与理念互享。设计团队核心成员拥有国际化视野，深耕多领域、全行业设计、工程规划和咨询。拥有化工医药百强企业项目服务经验，业务遍及中国、东南亚、欧洲、美国、南非等30余个国家和地区。

TIANS Group partners with international design teams like CB Consultancy AG for regular design experience and concept sharing. Its design team, with an international perspective, has rich experience in multi - field, cross - industry design, engineering planning, and consulting. They have served top chemical and pharmaceutical companies and operate in over 30 countries and regions.

## T-EPC DESIGN CONCEPT T-EPC设计理念

天俱时设计以20余年服务于制药行业的工程总承包经验为基础，拥有从工艺技术、合规咨询、工程建设到调试验证的强大专家团队，设计成员兼备丰富的生产管理经验、工程设计经验和工程建设经验，在设计过程中，能将生产工艺、建造工艺与环保节能工艺并行考虑，帮助客户实现方案、投资、进度和项目品质的多方位保证，提供最具落地性、符合项目需求的设计服务。

Based on more than 20 years of engineering general contracting experience in the pharmaceutical industry, TIANS design has a strong expert team from process technology, compliance consulting, engineering construction to commissioning and verification. The design members have rich production management experience, engineering design experience and engineering construction experience. In the design process, they can consider the production process, construction process and environmental protection and energy saving process in parallel to help customers realize the plan, investment Multi directional guarantee of progress and project quality, and provide the most landing design services that meet the needs of the project.

### 工艺优化

从设计角度，对工艺流程提出优化方案

From the design point of view, the optimization scheme for the process flow is proposed

### 缩短工期

充分理解项目全流程，合理安排工期进展

Fully understand the whole process of the project and reasonably arrange the progress of the construction period

### 成本控制

合理控制项目投资，节约成本。

Reasonably control project investment and save costs.

### 快速响应

对于项目全过程的服务需求，能做到快速响应

Fast response to the service needs of the whole process of the project
